

# Dell AX System for Azure Local: The Premier Hybrid Foundation

## Stop Managing Complexity. Start Innovating.

The Dell AX System for Azure Local is the most deeply integrated, purpose-built infrastructure for running Azure on-premises. As a Microsoft Premier Solutions partner, Dell gives you the unified, cloud-native experience you demand, eliminating the complexity and friction of traditional hybrid IT.

## Get Started with the Premier Azure Experience

Ready to unify your cloud and data center?

The Dell AX System for Azure Local is the fastest path to realising a truly seamless, fully supported Azure hybrid cloud.

- **Accelerate Innovation:** Leverage Azure services on-premises with integrated automation and a cloud-native experience.
- **Simplify Management:** Eliminate complexity with full-stack lifecycle management using familiar Azure and Dell tools.
- **Scale Confidently:** Deploy the right-sized infrastructure, from the edge to the data center, backed by Dell ProSupport.

## Key Differentiators & Features

Why Dell for Azure?	Core Benefit
<b>Microsoft Premier Solution</b>	Guarantees the deepest integration and a Microsoft-native management experience.
<b>Perpetual OEM Licensing</b>	Included with the initial purchase—you get Azure Local software and Unlimited Windows Server Datacenter VMs for the lifetime of the hardware.
<b>Full-Stack Automation</b>	Lifecycle management is handled by Azure Update Manager with integrated Dell tools, automating updates from firmware to drivers and Windows security policy.
<b>Scalable AX Nodes</b>	Flexible configurations that scale from a single edge machine up to a 16-node cluster.
<b>Edge-Ready Resilience</b>	Includes the ruggedized AX-4000 for reliable, high-performance computing in harsh remote and branch office environments.
<b>Independent Storage</b>	Use Dell PowerFlex software-defined storage to scale capacity linearly and independently of compute resources.
<b>Unified Monitoring</b>	Dell OpenManage integrates directly into Azure services, pushing hardware alerts to Azure Monitor and policy definitions to Azure Policy.
<b>Single-Contact Support</b>	Dell ProDeploy and ProSupport Services provide professional onsite deployment and streamlined technical support for the entire stack.
